

DARTMOUTH DEPARTMENT OF ECONOMICS  
LECTURE SERIES ON INEQUALITY, DISCRIMINATION, AND OPPORTUNITY

PRESENTS:

# William M. Rodgers III

Vice President and Director of the  
Institute for Economic Equity  
Federal Reserve Bank of St. Louis

## CASES FOR ECONOMIC EQUITY

Professor Rodgers will present four economic cases for equity. Each offers an analytical framework for understanding the importance of economic equity. The key conclusion of these cases is that persistent inequity has adverse effects and consequences for the entire economy, not just vulnerable people and low- and moderate-income communities. Thus, everyone can gain from greater economic equity.

**Tuesday, October 17, 5:00 – 6:00 pm**

**Moore Hall B13 (Filene Auditorium)**
