

# ECONOMICS MAJOR WORKSHEET

## Prerequisites

Economics 1            Term \_\_\_\_\_

Economics 10        Term \_\_\_\_\_

Mathematics 3        Term \_\_\_\_\_

## Requirement I - Must be completed before the culminating experience.

Economics 20        Term \_\_\_\_\_

Economics 21        Term \_\_\_\_\_

Economics 22        Term \_\_\_\_\_

**Requirement II:** Take two of the following sequences. The two must appear in different lines of the table. At least one of the sequences must include a culminating experience (42, 44, 45, 46, 47, 48, 49, 80, or 82). Sequences with a culminating experience are highlighted in grey. Circle your two chosen sequences.

### Field

Macroeconomics	32-29	32-78	32-76	32-42
Development Economics	24-27	24-39	24-71	24-44
Industrial Organization	25-35			25-45
Money, Banking, and Finance	26-36	26-76		26-36-46
Labor Economics	27-24	27-71		27-47
Public Economics	28-38	28-71		28-48
International Economics	29-39			29-39-49
Advanced Theory	80-81	81-82		80-82

**Requirement III:** You must take a total of six courses numbered above 10. Depending on the number of courses in your chosen sequences you will need to add one or two additional courses.

Additional Course 1: \_\_\_\_\_

Additional Course 2: \_\_\_\_\_ (if needed)

## The Economics Major

### Prerequisites for the major

- Economics 1 and 10, with an average grade no lower than C
- Mathematics 3

Another statistics course (GOVY10, MATH10, etc.) may be substituted for Economics 10 with permission of the vice chair. AP courses may be used to satisfy the prerequisites.

### Major requirements

- Nine courses in addition to the prerequisites
- Your GPA for these nine courses must be no less than 2.0.

The nine courses must include the following:

- Economics 20, 21 and 22. ☑
- Any two sequences (see the other side of this document for acceptable sequences).
- At least one of Economics 42, 44, 45, 46, 47, 48, 49, 80, or 82 (the culminating experience).

The first requirement ensures that majors are proficient in each of the three core areas of economics: microeconomics, macroeconomics and econometrics.

The second requirement ensures that majors are proficient in at least two fields. These fields are:

- Macroeconomics (the “2s”)
- Development Economics (the “4s”)
- Industrial Organization (the “5s”)
- Money and Finance (the “6s”)
- Labor (the “7s”)
- Public (the “8s”)
- International (“the 9s”)
- Advanced Theory (“the 80s”)

The culminating experience is a senior seminar in which students read and discuss the important literature in one of their fields and produce a major paper based on their own original research.

### Major Declaration

You must declare your economics major in Degree Works to receive priority status when registering for economics courses.

The plan of study listed on your declaration is not set in stone, but it is important to think about and document your best estimate of the courses you plan to take. If your plans change please update your declaration in Degree Works to insure that you are on track to graduate.

Pay particular attention to prerequisites and to the term in which courses are expected to be offered to ensure that you are eligible to take your desired courses in the desired terms.

It is important to realize that declaring your major does not guarantee you a place in your desired course in the desired term. You must register on time, and may still be placed on a wait list.

Course schedules and interests may change, but it is important that you have a plan that will fulfill the requirements of the major.

Please refer to the Registrar’s Office link below when you are ready to declare your major.
