Rationale for the Modified Major - Identify the specific problem or topic that you wish to st and justify why its study depends on courses in MATH. The courses of the modified major should be planned as a unified, coherent whole.	and justify why its study	depends on courses in MATH.	•	

Modifying Courses - The modified major requires 4 approved courses in MATH (see the worksheet). Explain how each course fits coherently with your general rationale and how it complements your economics courses. It is your responsibility to make sure that courses will be offered in the terms you plan to take them.

Number		Term
Modifying Course 1	Explanation
